

Onesec is a proud participant in the Microsoft Security Copilot Partner Private Preview

Mexico City, Mexico, December 2023

Onesec today announced its participation in the [Microsoft Security Copilot Partner Private Preview](#). Onesec was selected based on their proven experience with Microsoft Security technologies, willingness to explore and provide feedback on cutting edge functionality, and close relationship with Microsoft.

“AI is one of the defining technologies of our time and has the potential to drive meaningful, step-change progress in cybersecurity,” said Ann Johnson, Corporate Vice President, Microsoft Security Business Development. “Security is a team sport, and we are pleased to work alongside our Security Copilot partner ecosystem to deliver customers solutions that enhance cyber defenses and make the promise of AI real.”

Onesec is working with Microsoft product teams to help shape Security Copilot product development in several ways, including validation and refinement of new and upcoming scenarios, providing feedback on product development and operations to be incorporated into future product releases, and validation and feedback of APIs to assist with Security Copilot extensibility.

“We are privileged on being trusted advisors to a diverse range of clients. To meet the expectations of this responsibility and to honor the trust vested in Onesec, we commit on ensuring we have the highest capabilities. With this commitment, we take pride in our participation in the Partner Private Preview, integrating Microsoft Security Copilot capabilities with those of our specialists and security operations. This integration significantly amplifies our response capabilities, reducing investigation times, providing more comprehensive information, and overall optimizing the whole incident management cycle. Ultimately, this minimize risks and brings value to our clients.” Said Carlos Quijas, Director of Advanced Services

Security Copilot is the first AI-powered security product that enables security professionals to respond to threats quickly, process signals at machine speed, and assess risk exposure in minutes. It combines an advanced

large language model (LLM) with a security-specific model that is informed by Microsoft's unique global threat intelligence and more than 65 trillion daily signals.

About Onesec:

Onesec is a Mexican company specializing in digital risk management. With expertise across diverse industries, including highly regulated sectors, we transcend the typical cybersecurity business. At Onesec, we've successfully amalgamated experience, certified talent, and technology, all driven by a clear purpose: to craft strategic solutions that ensure genuine security and support for our clients and their businesses.
